235. EMPIRE

SEWING MACHINE.

Patented February 14, 1960.

Ralestoom No. 335 Brandway.

This machine is constructed on an entirely new principle of mechanics. It possesses many rare and valuable improvements—has been examined by the most profound caperts, and pronounced to be simplicity and perfection combined. The following are the principal objections urged against sewing machines:—

1. Excessive fatigue to the operator.

2. Hashility to get out of order.

3. Expense, trouble and loss of time in repairing.

4. Inexpectly to sew every description of material.

5. Disagresshie noise while in operation.

THE EMPIRE SEWING MACHINE.

It is exempt from all these objections.

It has a straight needle, perpendicular motion, makes the lock or shuttle stich, which will neither rip nor ravel, and is allke on both sides, performs perfect sewing in every description of material, from leather to the finest Nansock muslin, with cotton, linen or silk thread, from the coarsest to the finest number.

Having acither cam nor cogwheel, and the least possible friction, it runs as smooth as dass, and is

EMPHATICALLY A NOINELESS MACHINE.

It requires Mity per cent less power to drive it than any other machine in market. A girl of twelve years of age can work in steadily, without fatigue or injury to health.

Its etrength and wonderful simplicity of construction render it almost impossible to get out of order, and is guaranteed by the meetives with a superior article to call and examine this unrivalled machine.

But in a more especial manner do we solicit the patronage of FOR SALE—A NEW PANORAMA, WITH MACHINERY Decorations and all the paraphernalis, in perfect order and ready for an immediate four. Satisfactory reasons given for seiling out. Address box 81 Broadway Post office, care of B. Lockwood, New York. DE SAVANNAH AND OTHER POINTS, AB BELOW.—
